

Z-4

October 27, 2005

Mayor and Councilmembers,

My name is Howard Florence and I am the applicant on item Z-4 which is on your agenda today. I know this case has been repeatedly postponed but as a novice citizen I need to ask you to please consider my request to postpone this item one more time.

My agent, Sarah Crocker, had to withdraw from this case at the last hearing. She referred us to an attorney who was willing to work with me but then discovered there was a conflict and was unable to continue. I have met with another attorney and I will have representation by the first part of next week.

I have not been involved in this process before. I have talked to one of the neighbors and I am continuing my efforts to address their concerns with my civil engineer and land planner. I did call the neighbors yesterday and tell them I was making this request and explained my reasons for doing so.

Anything you could do to help me out would be greatly appreciated.

Sincerely,

Howard Florence
